WHO WE ARE

A Direct-Source Indonesian Commodity Exporter

Tropic was founded in Jakarta by a team of export logistics specialists who saw firsthand how much value was lost through layers of commodity brokers. We built Tropic to solve that — connecting international distributors and bulk buyers directly with Indonesian farmer cooperatives, with full chain-of-custody documentation on every shipment.

Today we work with 2,300+ partner farms across Sumatra, Java, Sulawesi and Bali, shipping 480+ containers annually to 24 destination markets worldwide.
